

Cloth Masks for Children

Putting On

1

Wash your hands.

2

Check for holes or tears.

3

Make sure the inside of the mask is facing your child.

4

Hold the mask by ear loops to pull over your child's face.

5

Make sure nose and mouth are covered.

Maintenance

Dos

- Wash your child's mask daily.
- Remove your child's mask before they eat or drink.

Don'ts

- Don't let your child touch the front of the mask.
- Don't let your child pull the mask under their chin when they are talking, eating or drinking.

Removal

1

Pull the mask off by the ear loops.

2

Wash the mask.

3

Wash your hands.

A mask is not a replacement for other safety measures to help stop the spread of disease. You should continue to stay at home as much as possible, wash your hands frequently with warm soap and water and stand six feet away from other people. **Children under two years old should not wear a mask.**
